

Blessed Savior Childcare allows for complete wrap around care from the hours of 7:00 a.m. until 5:00 p.m. Hours are very flexible and you only pay for the hours that you use. Children can stay as little as 30 minutes to a full day and anywhere in between! If your child is registered to be in a preschool class, teachers will pick up your from childcare and return to childcare after preschool has ended. The childcare room welcomes children ages 2-6.

Childcare has a daily schedule and works with unit themes similar to those used in the 3K and 4K classes. The schedule in childcare is a bit more flexible and includes more playtime than the regular preschool day. Children are encouraged to participate in a variety of activities. Centers in the childcare room include dramatic play area, art, blocks, puzzles, sensory table, science, and math. Centers are changed often in the childcare room. There are also a wide variety of toys available to encourage social interaction and play! Snack and lunch time also allow for children to interact and visit with their friends!

## Preparing the “WHOLE” Child Preschool “S.P.E.C.S.”

Circle time is included in the morning's activities and give the children the opportunity to learn about the theme as a group. This time also allows for new skills to be introduced. Children are given ample opportunity to talk about what they know in relationship to the unit being learned. Stories are a big part of the curriculum as they allow children to recall and explore the world around them. Large motor play is also a big part of the childcare day. Children are given opportunities to play upstairs in the gym room as well as outside on the playground. Children also have a time for resting as the afternoons are less structured than the morning. All children will have a 30 minute period of quiet rest time allowing for rest and relaxation.
